OBJECTIVE

Frontend Developer with '3 years' of experience delivering scalable, user-focused web and mobile applications using React, Next.js, and TypeScript. Skilled in delivering highperformance, production-grade solutions with modern stacks including Clerk, R3F, and Blender. Proven ability to own full product lifecycles, deploy to cloud platforms, and collaborate in remote, async, and agile teams. Open to remote UK roles and relocation.

Skills

- **Languages:** TypeScript, JavaScript
- **Frontend:** React.js, Next.js, React Native, HTML5, CSS3, Tailwind CSS, MUI, Bootstrap, Three.js, React Three Fiber (R3F), NativeWind, Framer Motion
- **Databases:** MySQL, MongoDB
- **DevOps & Hosting:** GitHub, GitHub Actions, CI/CD pipelines, Vercel
- **3D & Animation:** Blender, Lottie (Bodymovin)
- **Video Editing:** Adobe After Effects, Adobe Premiere Pro

EXPERIENCE

Frontend Developer

Oct 2022 – Present | Chennai, India

- Delivered 8+ client websites and a SaaS product end-to-end, resulting in 5 long-term retainers and 30–50% growth in user engagement.
- Built type-safe REST APIs using TypeScript (Next.js, Node.js), achieving 50–75% faster data fetch speeds.
- Developed SEO-optimized Next.js applications using SSR and serverless APIs, reducing client-side JavaScript load by 60%.
- Implemented CI/CD pipelines with GitHub Actions for automated testing
- Modeled a 3D scrollable cosmos scene in Blender, and integrated it using React Three Fiber, enabling users to intuitively grasp complex concepts through immersive visuals and Animated using Framer Motion.
- Built a React Native mobile app with NativeWind for a school expo; implemented Clerk for authentication and exported the project as a fully functional APK.
- Created animated SVGs for an entire website; exported from After Effects using Bodymovin as Lottie-compatible JSON animations.

FREELANCE | Frontend Developer

Nov 2021 – Dec 2021

- Built SEO-friendly SaaS landing pages using HTML, CSS, and JavaScript, boosting organic traffic by 60%.
- Managed full deployment pipelines including Hostinger (hPanel) setup, SSL provisioning, and performance tuning— cutting go-live time by 50%

ACHIEVEMENTS

- Interfaced directly with clients' technical teams to understand requirements design reviews, and technical delivery.
- Edited a video Using AE & Premier Pro for Corporate company In My present company, including subtitles and final post-production for delivery.
- Delivered across multiple disciplines - animation, video editing and Website building - ensuring quality.
